Post-Tour Comment

Had a fantastic time.
I just wanted to say again thank you very much for the trip to Japan. It was great.

I would like to say a sincere "Thank you." for making our visit to Tokyo, Japan very memorable. You gave us a wonderful insight of the country that only a local can. Kudos to Charlie Ito for making this possible. The tour was made easy by your language translation and knowledge of the area. Touring the Nakamura Dental's facility proved to be very informative as well as interesting. The entire tour did nothing less than increase my motivation in adding to my contribution to the sales of all the quality Nakamura products. Meeting the great man and all the people behind this reputable company was a privilege and was the highlight of this tour.
